Say you do
Say you will

Give in to this mood
Give into your will

I saw starglit in your eyes
Smile, the world is in your smile

Staring down
On the ground

There's breaking news
In your shoes

Saw starglit in your eyes
Smile, the world is in your smile

I saw starglit in your eyes smile

Starglit in your, starglit in your eyes
Starglit in your, starglit in your eyes

I saw starglit in your eyes

Smile, the world is in your smile
The world is in your smile
