Summer day you took my love away
Summer day, oh summer day

Summer day you took my love away
Summer day

Where were you when i needed shelter?
Where were you when i needed rain?

Now where were you when i needed shelter? tell me
now 'cause i'll go insane

Summer day, i'm all blue with my tambourine
Summer day, i'm all blue

Seven days and seven nights i'll wait
Summer day

Seems to me that this is a sad symphony
Oh summer day

Where was i when you found a keeper?
Where was i, was i locked away?

Summer day, i'm all blue with my tambourine

And summer day, i sing to you
'cause summer day, i'm all blue, i'm all blue

And i can go on, just singing this song
And i can't go wrong, if i'm holding on

Summer day, you took my love away
Summer day
Summer day you took my love away
