"Wake Me Up"

I like to know Im the key that unlocks me
I like to be, like to feel incomplete
Enjoy to be like I am and always will be
Best things are free
I believe, I believe
I like to hear honesty, no lying
I like to feel my thoughts, see them flying
Enjoy the smile of a child, purely loving
Somebody please shake me
Somebody please wake me up
Somebody please
Wake me up, wake me up
I wouldn't take up my time, with trophy hunting

I wouldn't say empty words, no flaunting
I can not stand anymore, I keep on looking
For something real I can feel, I can feel
I wont give in to this world, keep on fighting
I wont get nothing for free, no use applying
I wont agree to the fact, the pain is growing
Chorus
I like to be maybe little naive
Shake me up somebody please
Best things are free, I believe
I believe, I believe
Chorus
