I'm not sure if I want to let you
In this world that is out to get you yeah,
I could be paranoid

I'm not sure if I want to shake you
Up in the morning to this world that's out to break you
Yeah, could I be paranoid

Take a stroll around these people
I just mean to keep you safe

Â´cos the world is crazy.. - the world is crazy
the world is crazy - the world is crazy

I have only goo intentions
To keep you in the right direction
Yeah, or am I paranoid

But still I feel that I have to warn you
Walk where it's safe and don't let nobody misguide you
Yeah, or am I paranoid

Take a look at all these people
I just need to see you safe

Â´cos the world is crazy.. - the world is crazy
the world is crazy - the world is crazy

I guess you gonna be alright
And you gonna be OK
You gonna be just fine
You've always been a strong kind
Always been too wise

So is it just me - The only twisted
So is it just me - Who fears - crazy..
