"A Voice From Below"

Visit "[A Voice From Below](#)" on MotoLyrics.com

There is nothing you can't do
Let my voice be the one that guides you

Now is the time
I need you all to listen and repeat
This world's a prison but I swear
That it won't be the death of me

Now is the time
I need you all to trust, listen and repeat
This world's a prison but I swear
That it won't be the death of me

There is nothing you can't do
Let my voice be the one that guides you
There is nothing you can't do
Let my voice be the one that guides you

When all hope is gone you'll hear my voice
You will my hear my voice
You will my hear my voice

Now is the time
I need you all to listen and repeat
This world's a prison but I swear
That it won't be the death of me

Now is the time
I need you all to trust, listen and repeat
This world's a prison but I swear
That it won't be the death of me
Be the death of me

This world's a prison but I swear
That it won't be the death of me
