There's a million things that I could say  
If you're down for listening

I never thought I'd feel so alone  
I never thought I'd want to come back home

But I chose my path 9 years ago  
And now there's no turning back  
No, there's no turning back  
There's no turning back

I lost everything  
Just to have this  
And now my dreams  
And coming true  
And now my dreams are coming true  
(X2)

Chase your dreams  
Don't leave in fear.  
(X2)
