I stare into a void
My life's an emptiness
I stare into a void
Death you are my mistress

I would do anything for you
Please stand by my side
I would do anything for you
Just tell me who must die
I would do anything for you
You are the reason I'm alive

I stare into a void
My life's an emptiness
I stare into a void
Death you are my mistress

Becoming a God
A hollow victory

You are the reason I'm alive [x4]
Death my bride! (Death my bride!) [x3]
You are the reason I'm alive

I cannot live without you
But you don't need me
[x6]
