Laying alone with the history that made you

Cold and uncertain inside

Well careful now, deep breath

The water's still rising

But your silver linings inside

When you

You feel like you're breaking down

And ya, your body's just giving in

And ya, you can't go on broken like this

Any longer

Close your eyes

Don't you cry

Let the sorrow within you subside

Don't despair

Have no fear

Give your way to me when you hear

This lullaby [Lullaby]

You say all seems so wrong with the life that you're
living

You're searching for some reason why

You're so scared to trust

You're feeling unworthy

Aching for comfort tonight

When your heart's too sore to beat

And ya, you fear it might never heal
And ya, you feel not even beggars want you

I do

Close your eyes

Don't you cry

Let the sorrow within you subside

Don't despair

Have no fear

Give your way to me when you hear

This lullaby [Lullaby]

Close your eyes

Don't you cry

Close your eyes

Don't you cry

Let the sorrow within you subside

Don't despair

Have no fear

Give your way to me when you hear

This lullaby [Lullaby]

Don't you cry

Let the darkness within you feel alive

Don't despair

Have no fear

You'll find comfort in me like a child

This lullaby [Lullaby]

This lullaby [Lullaby]

Don't you cry

This lullaby [Lullaby]
