

Emmy Shot A Unicorn "Better Ways"

Visit "[Better Ways](#)" on MotoLyrics.com

This is a song for all the lovers in the world
A song for all the lovers that have been hurt
So come on! forget these bad days
Come... searching better ways
(I know that you've been hurt for all the times)
-better ways

I know the ways are hard but you have to walk along
And if you can't escape then try to sing my song

So come on! forget these bad days
Come... searching better ways
(I know that you've been hurt for all the times)
-ways like these

I know you got friends and I know you got heart
So why won't you take and try this new start?
