Away beyond the blue  
Away beyond the blue  
One star belongs to you  
One star belongs to you

And every breath I take  
And every breath I take  
I'm closer to that place  
I'm closer to that place

Yeah baby, I'm gonna meet you there  
On the outskirts of the sky  
Yeah baby, I'm gonna meet you there  
And we will fly

Away beyond the blue  
Away beyond the blue  
One star belongs to you

This life is but a dream  
This life is but a dream  
Go gently down the stream  
Go gently down the stream
