(Paul Kennerley)

You asked me if I've met your baby
I have to say it's been some time now
But it seems like yesterday
He was mine for awhile
We had good times
We went in style
But now he's yours
Treat him kind
Yes I remember well when he was mine

You say he means the world to you
Yes I can tell
You'll make each other happy I wish you well
He was mine for awhile
We had good times
We went in style
But now he's yours
Treat him kind
Yes I remember well when he was mine

He was mine
He was mine
