[George Jones]  
If you say that you've been searchin' for  
A place you've never been  
Aw, here it is, darlin', here it is.

And when you're down there at the bottom  
And you're lookin' out for a friend  
Here I am, darling, here I am.

[Both]  
We've both grown tired  
Of running after rainbows  
Here we are, darling, here we are.

--- Instrumental ---

[Emmylou Harris]  
If it feels like you've been driftin'  
And you don't know where you've been  
Come on in, you can come on in.

And if all you've seen is back roads  
That leads you out of town  
Turn 'round, darling, turn 'round.

[Both]  
We've both grown tired  
Of running from each other  
Her we are, darling, here we are.

We've both grown tired  
Of running after rainbows  
Here we are, darling, here we are.

Here we are, here we are...
