I've been higher than the High Sierra lower than Death  
Valley must be  
I've been right mostly wrong wrong about you right  
about me

The way I feel can't explain so much passion turned to  
pain  
The sun still shines most of the time did you know the  
sun shines when it rains  
I've been higher than the High Sierra...  
[ fiddle ]  
I've been cussed and I've been praised and I've been  
nothing these days  
I'll come back time will see if I'm wrong about you right  
about me

I've been higher than the High Sierra...  
Wrong about you right about me wrong about you right  
about me
