If I could only win your love  
I'd make the most of everything  
I'd proudly wear your wedding ring  
My heart would never stray when we're away

If I could only win your love  
I'd give my all to make it live  
You'll never know how much I'd give  
If I could only win your love

Oh, how can I ever say  
How I crave your love when you're gone away?  
Oh, how can I ever show  
How I burn inside when you hold me tight?  
If I could only win your love  
I'd give my all to make it live  
You'll never know how much I'd give  
If I could only win your love

Oh, how can I ever say  
How I crave your love when you're gone away?  
Oh, how can I ever show  
How I burn inside when you hold me tight?

If I could only win your love  
I'd give my all to make it live  
You'll never know how much I'd give  
If I could only win your love
