Come gather round me boys and lend an ear  
I've got some things I think you all should hear  
It's time to shift into another gear  
I've reached my final destination bought a radio station  
And she's fifty thousand watts pure and clear

K S O S help is on the way twenty-four hours of every  
day  
A voice in the wilderness and we're here to stay K S O S

K S O S help is on the way twenty-four hours of every  
day  
A voice in the wilderness and we're here to stay K S O S

K S O S help is on the way twenty-four hours of every  
day  
A voice in the wilderness and we're here to stay K S O S
