Sweethearts of the Pines

(Emmylou Harris/Paul Kennerley)

Well, I used to roll and I used to ramble  
Out on the wilder side of town  
Every night I hear the bright lights calling  
I never thought I could ever settle down.

Well, I seen a whole lot of pain and trouble  
In this lonesome life of mine  
But you gave me love and you gave it double  
And I'll always be your sweetheart of the pines.  
I'll always be your little sweetheart of the pines.

Now, you searched the dark side of the mountain  
Just to find what you thought true love should be  
But you found a heart that you never knew  
When you got around to the other side of me.

Well, I seen a whole lot of pain and trouble  
In this lonesome love of mine  
But you gave me love and you gave it double  
And I'll always be your sweetheart of the pines.  
I'll always be your little sweetheart of the pines.

Now, you make me feel lovesick darlin'  
The way I did back when my heart was young  
But I'm young enough to start all over  
And old enough to show you how it's done.

Well, I seen a whole lot of pain and trouble  
In this lonesome life of mine  
But you gave me love and you gave it double  
And I'll always be your sweetheart of the pines.  
I'll always be your little sweetheart of the pines...
