Emmylou Harris & Glen Campbell

You are an eagle on the wind  
A diamond in the rough  
A rare and special thing  
You are the music in my soul  
A painter's finest parchment  
A poem from the heart.

And everything that's beautiful you are.

--- Instrumental ---

You are a true and timeless friend  
A smile that never questions  
A love that never ends  
You are the one that takes my hand  
And tells me all I have to do is wish upon a star.

Every time I need you then you are.

--- Instrumental ---

You are a fire that's burning bright  
That keeps me from the cold  
And warms me thru the night  
You are my reason to believe  
That love is all that life can be  
Someday I hope you will see  
Just how much a part of me you are.

--- Instrumental to fade ---
