No one would expect this from me
So strong
So proud
No one thinks of me
Rotting
Dying
I'll purge myself from this
From this living hell
Just take it all away
I'm trying to survive another day
In this living hell
Just take it all away
Just take it all away from me
From me
Our eyes can't hide such simple fears
A blood-filled cry they'll never hear
(2x)
I try to make it go away
But I can't escape myself this time
Speaking of time, mine's running thin
It already ended before it could begin
I try to escape
But I can't make it go away this time
[INTERLUDE]
I'll say a prayer, straight from the heart
I'll hang my head, this is tearing me apart
