Soon you will be gone
But I, I have to stay
This will be so hard
Life won't be the same
This flame is getting hotter
This flame it burns your soul
This flame is getting hotter
This flame engulfs us
All your life you try
Never did you succeed
Now you wish to bleed
All your hate on me
This flame is getting hotter
This flame it burns your soul
This flame is getting hotter
This flame engulfs us
Don't let it get out of control
Don't let it go too far
Don't let it go too far
[INTERLUDE]
[SOLO]
This flame is getting hotter
This flame it burns your soul
This flame is getting hotter
This flame engulfs us all
