The new century's coming
The violence rules
The police does nothing
They rob more than thieves
And near of the end
The people are dying
Bloodshed arrives!
No one will survive!
Profecies of death
Tell us the truth
The end is arriving
I'm not lying to you
Nuclear assalt
Can lay us forever
Bloodshed arrives!
No one can survive!
You're gonna die too fast
And if you want the Heavens
Start to pray now
You don't have more time
And if you were a bad guy
Devil'll eat your soul
Bloodshed starts!
Who'll be alive?!
