{Darkim Be Allah}

Infadety, tragedy, point black catastrophe
Hold vasline, that's savregy in the presince of your
majesty
Jet Black he the best first to quence ya thirst to get hurt
I burst the pops, who be long, in this fate who pop slugs
with dunnns
Like they was buds and Mr. Drumhorse, Thug Horse
Me and my niggaz run short in the blood porse
Perpursilly, hunts me down on that full speed
Pissy wanna proof me, Fuckin right
I'm the truth see, scaredy cats who need a demon
spooky
And design the crime that shoot me, get caught with no
avail
Got prevail, no stop, e-mail, AOL, cops wanna see it
what made 'em
Bitches up, husbands be hatin, beware, obligation
On such equations, inflatin it, head like helium
Spit like box of penix daily when I steal them
You know I'm stoned for real or when cokes will

{Darik the Assassin}

Live amongst the righteous, time is spent well invested
On the battle fields where I was desperate
I learned to send my clown to roll it down
Cuz times where hard and ain't a man to rob Gucci
Rhyme me at the corner convection, conversin with
thugs and scholars
Rhyme fitted caps, gold collars
Guzzled German vodka, pure commers layin in front of
lines
Vannaville system by one time
Clean my mind, as well as enemy
He sleapless, be the world skitriteous
Do the content of my face
Burnin it, but read to use it, boes for bleedin
Niggas never made it big, baby
We played my towns in the rain of a Rabis
I was raised to rick the Angel flow brainless
World by my enterprise, I won't be denied

Wanna redefined, cuz she scarred like the product
Bring words in proper cline

{K-Bar Allah}

And this abyss is not affindments
Combine the mind with the nine clips
And show them how minds spits
For sure my lines, get ya neighborhood dimeless
So let me get that behind switch, pocket
Rougher and rougher, population grow with suckas
Cuz I give it deduct ya
Money whip, never get, money wit
Fuck you and ya honey click
Don't be a dummy, make ya tummy get water mental to
the clip
Empty, represent N.Y.C., where the flies to fly
Be high as the high sea
U.S. to deal with, dance with us, to say the least is
cancerous
Like Rudy Judy would he, peace drunk and movies
carry uzzies
Had wet heads like Rudy, lace ya face like a goalie
Sun stop smokin mad groody, I've gone suspect that
they fooled me
