Watching you drift away
I can see the lights are fading
This night is growing cold
I can see the lights are fading
Watching you drift away
I'm watching you drift away
Watching you drift away
It didn't have to end this way
(2x)
Drowning my intuitions in corruption
Trading my resolutions for succession
Pushing this segregation revolution
Stand up to the oppression, it's your destruction
Liberation is so hallowed
Liberation is so shallow
Liberation (4x)
I'm watching you drift away
