I run quickly behind that hell  
It's cruel and hurt me  
You feel me in sorrow  
To know that you're waiting for me

I like that, I know you like that  
Take my soul, do it.  
Just catch me, hide the light  
Just enjoy the pleasure  
Stop the time  
No doubts  
It doesn't matter to die

Look at me, take me  
If you like what you're seeing  
That's all what a want?  
It doesn't matter to die  
If in the end you will be mine  
Just do it  
Give me the eternity

Take my soul  
Take my body  
I know you want it  
Just do it!

Without a course, I'm coming to you  
Destiny whispers it to me  
And I know you're waiting for me  
I like that, I know you're observing me  
Come on take my soul,  
I know you're...  
I think about it, come on take my soul
