I know the walked path reached to an end  
My cold heart agonizes in front of pain  
Beg for mercy and wish you could escape  
Beg for mercy

Now I see the truth  
And I see that light  
I see the days left behind  
And I feel this truth  
And I see that light  
And I see my soul wave goodbye

There's nothing more to lose in this life  
Only the intense and catchy silence, and  
The void is immense and penetrating...  
The void is immense and...

Now I see the truth  
And I see that light  
I see the days left behind  
And I feel this truth  
And I see that light  
And I see my soul wave goodbye

Now I see the truth  
And I see that light  
I see the days left behind  
And I feel this truth  
And I see that light  
And I see my soul wave goodbye  
I see this truth... I see that light!
