[Music : Vomitory Gorification, Lyrics : MÃ¡rtifico]

This last night of the year
Prepare people to their end
Something strange happens
Cadavers raise from their grave

The Dead of the year
Return from the darkness
Holocaust in horror of the Living-Death
Feast of the Undead, bowels for the supper
People turn to Zombies and devour their own children

Morgues and graveyards come to life
Hell takes place on Earth
Coffins open in the night
They need human flesh and brains

Blood gushes from brains
Human zombified eat
The flesh, the guts, the skin
Carcass remains empty

Any human can escape
A complete end of all the races
The great Holocaust finally comes
