[Words: Ihsahn/ Music & arrangements: Samoth & Ihsahn]

In an endless maze begotten  
To dead ends led by fools  
I sought a plague  
For those who smiled at walls  
In humble fear

Yet, belligerent ways came to an end  
No war could ease my hunger  
By craving death I was  
To darkness reborn

No sacrifice too great  
Caught in another maze  
Truly endless  
Still  
This maze is mine

No peace for me  
No peace I seek  
My quest goes far beyond

No sacrifice too great  
Caught in another maze  
Truly endless  
Still  
This maze is mine

I hail the greatest fall  
Dark is the spirit of my token  
Dark is my call

Still craving  
Still torn  
Hear me master  
Of this realm to which I was reborn

"Bearer of my stigma. Thou art of me.  
Yet, claim no gift, but guidance.

For I am the giver of temptation.  
Thou art the executor of Thy rewards"

The cosmic forces driving me  
More noble, more free  
Love and hate and all in between  
I greet them all in ecstasy

Take me

Venus  
Seduce me  
Mars  
Possess me  
Tear my soul from sanity

No sacrifice too great  
Caught in another maze  
Truly endless  
Still this maze is mine  
And I am thine
