Tell me something
Go on and break my heart
Make me want to scream
Just to wake myself inside
How can you love me
If you don't love yourself
Stop this game, it's a crying shame
How we tear each other apart
I've got an aching head
So many things unsaid
I can hear your footsteps on the stairs
And down below
Shut your mouth when I'm talking to you
Nagging and yelling is all you do
Shut your mouth when I'm talking to you
I'm though with you, I'm through
Sweet, sweet memories I used to know
We used to fight like snow against the sun
?Till it turned out right but then I said goodbye
And it was for good
But no one ever brought me
Joy and fun the way you could
Shut your mouth when I'm talking to you
Don't slam the door like you did before
Shut your mouth when I'm talking to you
I'm through with you, I'm through
Shut your mouth when I'm talking to you
Don't slam the door like you did before
Shut your mouth when I'm talking to you
I'm not through with you, not through
Hey, Jeff, how's it going I've got this desire growing
Sometimes I'd do anything
To have you as a friend again
But it won't be easy
It'll take a lot of guts
But I will pucker them all together
If that is what you want
If that is what you want
