When it came it came quick, when I was least expecting
It
You walked up from behind and asked me for a
cigarette
There you stood as beautiful as you are
I felt my heart leap out of my mouth swerve around you
And back in
You said, if I wanna to join, then I could
And as you walked back your rock'n'roll ass told me I
Should

Yeah you got it
That bit I need
Don't you shake it
You'll make me bleed

Yeah you got it
That bit I need
Don't you shake it
You'll make me bleed

After a beer and a half I joined you and your brother
Surely you noticed, that you blew my mind like no other
My god I must be out of my mind, what did I know
Soon the night grew far too old and she had to go
But hell no, hell not without me no

Yeah you got it
That bit I need
You'll don't you shake it
You'd make me bleed

Yeah you got it
That bit I need
You'll don't you shake it
You'll make me bleed

Yeah you got it
That bit I need
You'll don't you shake it
You'd make me bleed

Yeah you had it
That bit I need
Would you shake it
You'll make me bleed

Yeah you got it
That bit I need(ed?)
You'll don't you shake it
You'll make me bleed

Oh yeah you got it
That bit I need(ed?)

Yeah you got it
That bit I need(ed?)

I Need, But I Bleed

When it came it came quick, when I was least expecting
It
You walked up from behind and asked me for a
cigarette
There you stood as beautiful as you are
I felt my heart leap out of my mouth swerve around you
And back in
With shaking hands I grabbed for the pack and
fumbled
Out a a cigarette
You said, if I felt like joining you, yeah then I could
And as you walked back your rock'n'roll ass told me I
Should

Yeah, yeah, yeah
Yeah you could it
That bit I need
Don't shake it
You'll make me bleed

After a beer and a half I joined you and your brother
Surely you noticed, that you blew my mind like no other
You spiced me up with those looks you gave
And I thought to myself, boy is this really safe?
My god I must be out of my mind, what did I know
Soon the night grew far too old and she had te go
Hell no, but not without me...

Yeah, yeah, yeah
Yeah you got it
That bit I need
Ah please don't shake it

You'd just make me bleed

Now I'm sittin' all alone, your cherry lips in my head
The memories of your smile and your eyes aren't dead
But I cry out your name on the top of my lungs
But you're gone, it's all gone

Yeah, yeah, yeah
Yeah you had it
That bit I need
Awe, but you shook it
Now you're makin' me bleed
