As I'm lying here on my bed
I'm thinking back on what you said
A breeze of confusion has rushed through my head
Dunno if my needs for you can ever be fed
My beliefs are paradoxical but tonight you've got to
show
Oh please please nany cause I need to know

I always thought that romance was lame
I always thought it was a feeling that I could'nt tame
Romance, Romance...

As we kiss purple electric streams arouse our skin
Lighting up the big bad world we're in
Just for that moment the wind cries out our names
Love like that stays and stains
Be with me I'll be with you
You keep it a secret I'll keeo it too

I always thought that romance was lame
I always thought it was a feeling that I could'nt tame
Romance, Romance...

1, 2, 3, 4 - I always...
