Could not even [\_?\_]   
 That [\_?\_] my eyes and see   
 That there was blood through there long times ago   
 Oh my love now bring the day with [\_?\_]   
 Even if it's lavender and I am violet by thy shame   
 Never more like the silver hands of the moon   
 With its shield of screams   
 Sensation dark as thy splendid diamonds   
 She is like me, autumn her love   
 Like a bird I might wish my freedom   
 Eyes like a sapphire full of desire   
 Hair of gold and lips of fire   
 Thou art like the waters, so soft is thy skin   
 Thou art the raven wishing he could sing   
 Like an ember, this I writhe and I loathe   
 A flash of lightning so shattering thy rest   
 Thou art the wind that carriest me up   
 Oh she's everything I cannot see   
 In my dreams she does not let me be   
 Now [\_?\_] try to [\_?\_] takest me   
 Longings of belief art past   
 But the hollow echoes not died away   
 This is all over eternally   
 But it seems it hath been yesterday   
 Now abandon me [\_?\_] for a kiss   
 It's making us feel sad [\_?\_]   
 The wetness I feel under tears of mine   
 That pour faster thanst they leave
