You set me on fire, you make me feel
You break these chains, made of steel
You take me high, up to the starry sky

You set me on fire, you make me feel
You break these chains, made of steel
You take me high, up to the starry sky

No mercy!
Sex and drugs, taking your girl
Rock across the world, bass drops make that room get
Cray
Titty bounce, and people jump and let me having fun
Keep it calm! Why is the rum gone?
Rock and roll, let it go
Sip on my patron, hot big booty shake that ass
Got my mind blowing
Can't stop, who wants to suck my lollipop
Yummy
Open wide, slip inside come let me feel your tummy

And I dive into your soul, when I look in to your eyes
I get lost again and again
Emotions drowning me, in a deep and endless sea
I'll search for you, until the very end

Blood pumping, ball busting, party hard destroyer
Tear it up, rip it down, better call your lawyer
Smoke me out, getting laid, your boobies look delicious
My protein shake, taste so great, and is so nutritious
Bring your best and whip the rest
Please make that bitch my hoe, popping three ways all
Day
Go make my sandwich bro!
Why you mad? Getting cash, Y'all can kiss my ass
Fingers up at the club, you chicks can lick my nuts

Give me something real, that I can hold on to
When my world started caving in, I'll give you all of my
Heart
You're my dearest friend, and my love I will defend

YOU MAKE ME FEEL ALIVE!
Penetrate and get inside
I'LL NEVER LEAVE YOUR SIDE
My love I cannot hide
YOU LIED RIGHT TO MY FACE
Takes away all my pain
YOU CUT RIGHT THROUGH MY SKIN
I'll bury you deep within

You set me on fire, you make me feel
You break these chains, made of steel
You take me high, up to the starry sky
