Giving me sex is like a getting a drug fix  
The more heroine, the more bones for burying  
Till death do we party  
Celebrate it hardy  
We wont stop until the beat just drops!

Just a little more friction  
Prescription addiction  
Just a little more friction  
Prescription addiction  
Just a little more friction  
Prescription addiction  
Just a little more friction

You want it epic  
Now reject it  
And infect it  
Make them scream!  
You want it epic  
Now reject it  
And infect it  
Make them bleed!

Yeah

I'm in love with myself  
It's a curse I can't help  
I'll tell you my sins as this record spins  
I'm addicted to glamour  
I'll hit you like a hammer  
Dahvie always wins so jump in my bin!

Just a little more friction  
Prescription addiction  
Just a little more friction  
Prescription addiction  
Just a little more friction  
Prescription addiction  
Just a little more friction

You want it epic  
Now reject it

And infect it  
Make them scream!  
You want it epic  
Now reject it  
And infect it  
Make them bleed!  
You want it epic  
Now reject it  
And infect it  
Make them scream!  
You want it epic  
Now reject it  
And infect it  
Make them bleed!

Let's start a riot  
(Let's start a riot)  
Let's start a riot  
(Let's start a riot)  
Let's start a riot  
(Let's start a riot)  
Let's start a riot!  
(Let's start a riot! )  
Let's start a riot!  
(Let's start a riot! )  
Let's start a riot!  
(Let's start a riot! )  
Let's start a riot!  
(Let's start a riot! )  
Let's Start! Let's Start!

You want it epic  
Now reject it  
And infect it  
Make them scream!  
You want it epic  
Now reject it  
And infect it  
Make them bleed!  
You want it epic  
Now reject it  
And infect it  
Make them scream!  
You want it epic  
Now reject it  
And infect it  
Make them bleed!
