

## **Blood On The Dance Floor "Fallen Star"**

Visit "[Fallen Star](#)" on [MotoLyrics.com](http://MotoLyrics.com)

We were so in love  
We did all the drugs  
Fell down in clubs  
Our hearts just raised up

We kissed in the dark  
In the back of your car  
We cuddled in the park  
You shine like Noah's ark

Pain inside  
Crashes and glides  
I can't decide  
Your heart was my guide

It's been to long  
Your my perfect drug  
But the world's all wrong  
I hope you'll sing along

Wherever you are  
You'll be my star  
Near or far  
You'll always be my one

Kiss me goodnight  
Say it's alright  
This can't be goodbye  
My heart just dies  
(x2)

Earth is dying  
Kids are crying  
The plans we've made  
Just rot away

Your angel wings  
Will shine on me  
Like the blood on the strings  
My heart just falls in seams

You fall in front of me

As we cast away the sea  
I'll be your dream machine  
A life full of luxuries

You died in that crash site  
Just like our love life  
Blinded by headlights  
You fell in front of bright lights

Like Jack and Sally  
On top of Death Valley  
Down below in Southern Cali  
We lived our grand finale

Wherever you are  
You've stolen my heart  
Near or far  
You'll always be my star

Kiss me goodnight  
Say it's alright  
This can't be goodbye  
My heart just dies

Earth is dying  
Kids are crying  
The plans we've made  
Just rot away

Wherever you are  
You've stolen my heart  
Near or far  
You'll always be my star

Like Jack and Sally  
On top of Death Valley  
Down below in Southern Cali  
We lived our grand finale
