[Verse one]

I can live a better life  
Without you  
On my mind  
Don't need you  
To decide  
Without you  
I'll be fine

Pre Chorus:

I should've known  
Something this perfect  
Would've be so  
damn destructive  
I can live  
A better life  
Without you  
On my mind

Chorus:

Put me under  
Under the knife  
Love will be gone  
when I open my eyes sedate  
Me loveotomy  
Now you're gone  
Leaving memories behind  
Erasing you, from my mind  
Sedate me loveotomy  
Now Your gone

[Verse 2]

I can finally  
See now  
That love really  
Isn't blind  
I can finally  
Breathe again  
Once your  
Memory has died

[Bridge]  
I'm over it  
I'm over you  
I wished you dead  
My wish came true

Mother Earth

Our planet,  
Mother Earth is the sacred home to us all.  
The Earth is constantly providing and sustaining all life.  
There is no scarcity, only abundance and bounty.  
This is a natural state in which our planet is in.  
That is also a true state.  
We truly have it all.  
The elemental forces of the Earth  
are the manifestation of the energy of life.  
We have the air, water, fire, and wind.  
These elements are manifestations that influence  
and transform energy into matter.  
The Earth's energy field is a powerful balance,  
creating dark and light.  
We are connected to this balance.  
Through Earth we receive energy, support, prosperity,  
and strength.  
We are never separate from the Earth  
and its abundant energy.  
We are all in this together, we are one.  
I remember to see the world  
through eyes of love and acceptance.
