Oh my, look how old we're becoming - what are we to do?

We'll change our hair dye, change our footwear,
change ideas to fit what magazines say

Trying so hard to be looked up to

Oh my! look how pass? we're all becoming - what are we to do? well don't you worry, just pay attention, keep looking up because they'll always be here

Trying so hard to be looked up to

For some reason you caught my eye, well maybe I'll wake up and feel okay. for all the dumb lines that we used last night, I hope that I wake up and feel okay

Trying so hard to be looked up to
It's not working
