I see those hips rolling like a rims on a Bughatti
Sweat dripping from her lips to her tits onto her body
And I heard she has a man, but she still wants to get
notty
She told me I was her type and I told that bitch to call
me

I don't want to hit and quit it , let the record hit and slit
L-lean back, watch you rub that ass, baby let a real man
hit it
Let it ride, ride, ride, ain't no plans, ain't no one gonna
stop us
I see the look in her eyes, I can see that she wants it

X times 3, we're getting undressed
Bodys 'gainst me, our hips getting wet
X times 3, just move with me
I don't want your love, just your body

Can you feel it on the edge of your seat?
Can you feel it, assert yourself to the beat

I wanna see your hands, I wanna see you dance
Put your hands on me, come dance with me
Now drop that ass, DJ drop that beat
Now what I gotta do to get you home with me?

I dont care boy or girl, just want you in my mouth
please sir
Hello Mr. Right Now, come hold me down like.. . "womp
womp"
If dancing is for movement, then I am the creator
I shake my ass, I bring it back I dont fuck with the
haters
And if you leave me satisfied, i'll add you to the list
But if you talk shit, i'll make your lips deep throat my
fist

Can you feel it, on the edge of your seat
Can you feel it, assert yourself to the beat?
Can you feel it, on the edge of your seat
Can you feel it, assert yourself to the beat?

X times 3, we're getting undressed
Body against me, our hips getting wet
X times 3, just move with me
I don't want your love just your body

Can you feel it on the edge of your seat?
Can you feel it, assert yourself to the beat?

Do you wanna play with me?
I will show you ecstasy
Do you wanna play with me?
I will be your anybody

X times 3, we're getting undressed
Body against me, our hips getting wet
X times 3, just move with me
I don't want your love just your body

Can you feel it on the edge of your seat?
Can you feel it, assert yourself to the beat?
Can you feel it on the edge of your seat?
Can you feel it, assert yourself to the beat?
