Let's Go

(Chorus-Willie)

I'm gone be your weather man,  
I'm gone change your temperature,  
I'm gone make you sweat like the rain when I'm  
touching ya,  
I'm gone your weather man,  
tell me can you stand the heat,  
I'm gone make your temperature rise when our bodies  
meet,

I know you don't like when the weather change,  
In the forecast I see slick roads from the rain, Girl I love  
it when you..  
rain rain on me..  
rain rain on me..  
rain rain on me..  
your Weather Man

(EmSolid 1st Verse)

You don't have to worry about the weather baby girl

I wanna know your every hot spot, just to make you  
body go extremely crazy, when you look at a nigga like  
that, wanna pleasure you body real good on a daily, we  
can do it in the pouring rain, so when the water drops it

because its cold, every time I touch certain parts on  
you shawty, you like it when my hand right there, can i  
put my lips right there? I see you body stimulating from  
the weather man, so I'ma put my tongue right there, I  
can do it anywhere that you want let me know baby girl  
anything that excites you, we can do it when its blazing  
hot with sweat dripping down our body girl I invite you,  
to my weather channel baby girl, let me be you  
meteorologist forecasting your future, you know the  
name, Beat Prince, girl I see us sexing in my bedroom,
