*** INTRO ***

In the past I believed that the
Choices I made were for the best.
When I looked back
I realized that I hurt someone who really cared for me.

-----CHORUS-----

I miss you I'M SORRY
I KNOW I DID YOU WRONG I'M SORRY
BABE I WANT YOU BACK I'M SORRY x2

*** VERSE1 ***

I wish I could take things back to the start
You loved me wid all ur heart
A mind filled with evil has no room for feelings
True love stories never have endingZ

I messed up bad doing stupidness
There's no love without forgiveness
...I'm aware, I messed around
I learnt what you mean to me when you werent around

Since we broke up, My lifes messed up
I didnt do crime but I feel locked up
Friends say I'm still young forget what their on
Babe it aint happening, I wont move on

Good memories, our first kiss
Olden days, that's what I miss
Olden days, them days were fly
Forgive me or do not. There is no try.

-----CHORUS-----

I miss you I'M SORRY
I KNOW I DID YOU WRONG I'M SORRY
BABE I WANT YOU BACK I'M SORRY x2

*** HOOK ***

4 all the times I hurt u, n all the times I lied 2 u
4 all the times I did the opposite of what u told me to
do

4 all I wernt there n 4 all the times I didnt care
4 all the times I switched, n all the times u said its not
fair

-----CHORUS-----

I miss you I'M SORRY
I KNOW I DID YOU WRONG I'M SORRY
BABE I WANT YOU BACK I'M SORRY x2

*** VERSE 2 ***

U was the one who took away my lonely nights
Now ur gone, I'm back to the start back to lonely nights
Back to the road, back to the street fights
Back to the darkness where u dont see lights

I was the one that told you to get lost
You was the world in my palms that slipped off
Believe, my head was hot like larwa
Then I met who, then I met karma

So many times, I never put u first
Just ignoring u making things get worse
So many times, I made you cry
Babe, even I dont know why

... No one could take ur place
Nah no one will take ur place
All I did was make u cry worry
Sorry, I forgot to be ur hubby

-----CHORUS-----

I miss you I'M SORRY
I KNOW I DID YOU WRONG I'M SORRY
BABE I WANT YOU BACK I'M SORRY x4

*** OUTRO ***

That's all I got to say
What else can I say anyway
Everyone makes mistakes
I'm out!
