VERSE1

Instead of my heart I listened to my brain then
I did the stupidest mistake and that's when
U walked through that door and slammed it
I realised, what we had after I lost it

What happened to them times u said u'll return to me
I woke up this morning, u wernt beside me
Forget the sexing, I miss all the huggin, lovin
And even the voice tone u had when we were arguin

When I wake up your on my mind still
When I'm trying to sleep your on my mind still
I'm wit next girls but your on my mind still
All the time your on my mind still

Nothings the same, since u left me
U took a part of me when u left me
U was my angel, angels are godsent
I'm so heartless since u left me

CHORUS

I can't take this pain no more
Take this pain no more
Take this pain no more

I can't take this pain no more
Take this pain no more
Take this pain no more

VERSE2

I can't take this pain no more
What if I knock on ur door
Would u slam it on me
Or would u smile n hug me
Everynight I can't sleep
Everynight I feel weak
Everynight I drink
Everynight I think

What's the point of this track
You aint gona come back

I feel like a dead flower
How am I meant to feel stronger

When I have no sunshine
How am I meant to feel fine
Knowin u wont be mine
I'm losing my mind

Everyday I wake
Everyday A heartache
Everyday I feel it
Everyday I mean it

When I have no you here
How do I not drop a tear
Knowin u wont be mine
I'm losing my mind

Don't say what's the point of all this
Maybe coz it's u I miss
Butterfly with one wing
On my mind there's one thing

I can't take this pain no more
I feel like a lost soul
The devils taken over me
Since you left me

CHORUS
I can't take this pain no more
Take this pain no more
Take this pain no more

I can't take this pain no more
Take this pain no more
Take this pain no more X3
