Millions dying disemboweled. So unholy were their past lives.

There is no turning from this Infernal Catastrophy.

If they had accepted Christ, took the cross and

changed their lives, if they had repented first,

They would have no place in Hell.

Corpses still suffering death, dying and dying again

and again. totally absent from God.

Reality laughed in their face.

Lamb was slaughtered for their sins. Only some were

led to this life in Christ so plentiful.

And the rest were fools.

Persecution of his ones. Hundreds died and were

martyred. Heaven awaits our souls. Rejoice!

Corpses still suffering death, dying and dying again

and again. Totally absent from God. Reality

Laughed in their face...again

Screaming will never end. Instantly burned to death.

Ignorance killed their souls, dying and

Dying again.
