Hey dreamer, Don't be scared
I won't let you, face this world alone.

'Cos I will help you through these
Dark times I've been through
And I know your not alone but
I just can't sleep at night

Every breath I take
Every moment we made
All these feelings fade
And my hands start to shake
Hands start to shake

It's alright, I'll be there
I won't let you fall again anymore.

Every breath I take
Every moment we made
All these feelings fade
And my hands start to shake
Hands start to shake

Every breath I take
Every moment we made
All these feelings fade
And my hands start to shake
Hands start to shake

(Hands are shakin' they're, shaking, my hands are
shaking, they're shakin', my hands start to, hands start
to, shake)

(I will be there for you. I won't let you fall.)
