I prey on self-relieving  
Vice-inspiring  
Glamor whores of fame  
I'll be happy to get out

She points a stubborn finger  
Like an only answer to a song  
Well, I know I'm better now

You get your head out on a plate  
Well, I just wait till I can be like that

Whatever you decided  
I'm glad you're calm but I'm still tired  
And I've been awake since I don't know

They got a way of making  
Clock that never stop till the end of time  
Time will never get involved

You get your head out on a plate  
Well, I just can't wait till I can be like that  
Till I can be like that

Don't you know? But now I'm sure  
Ooh, if I could be like that

Now the time  
The only time I get excited  
And nobody came  
There's no one there for you

Now the time  
The only time I get over  
And nobody came  
There's no one there for you

You get your head out on a plate  
Well, I just can't wait till I can be like that  
Till I can be like that

You get your head out on a plate

Well, I just can't wait till I can be like that  
Till I can be like that, till I can be like that  
Till I can be like that

If I could be like that  
Ooh, if I could be like that  
If I could be like that till I could be like that

Oh, if I could be like that  
Ooh, if I could be like that  
If I could be like that
