We shake our booties but we're better than that

Man with a gun keep walking on lightly
This lazy student be a part of the act
Coming on strong
You said nothing
You said nothing at all

Instead of waiting I'll be counting to ten
Patience will end, man I've been worried
And I've been letting lies dictate my acts
Finding the facts oh so disappointing

All you common fools
We are breaking every rule that ever stood
So much that I have lost all of my friends
Satisfy this man, satisfy him
He'll be coming to get ya

The kamikaze pilot causes the crash
Man he's got class
Loves these Japanese ladies
And I've been letting lies dictate my acts
Finding the facts oh so disappointing

All you common fools
We are breaking every rule that ever stood
So much that I have lost all of my friends
Satisfy this man, satisfy him
He'll be coming to get ya
