Say what you want,
I'm happy to guess,
Ignoring the clock,
To believing answers,
There's nothing left.

I will never be sober,
It's hard enough being friends,
The end of that birthday party,
Counting cigarettes at 7am

But some of them don't know,
And some of them won't ever know.

Then love comes in
It's easy now
Then love comes in
Before you even know somebody
Take a look at it now
You really gotta feel somebody
Take a look at it now

I won't ever be sober
It's hard enough being friends
The end of the birthday party
Counting cigarettes at 7am

But some of them don't know,
Some of them won't ever know

Then love comes in,
It's easy now,
Then love comes in,
Before you even know somebody,
Take a look at it now,
You really gotta feel somebody,
Take a look at it now,
Before you even know somebody,
Alright

Then love comes in,
It's easy now,

Then love comes in,
It's easy now,
Then love comes in,
Ohhhhhh
Then love comes in,
Then love comes in,
Then love comes in
