

End Of Green "Only One"

Visit "[Only One](#)" on MotoLyrics.com

You are the only one that i ever loved
you are the only one that i ever lost
Dead beautiful romance still sleeps on cold ground a
neverending long way
to reach your arms the light can no longer shine
emptiness drinking of my
veins
you are the only one still i search for your cold heart
grief always embrace
my heart
I remember you are my last love you are the only one
I remember you are my last love cold skin and blue
cold lips undying in my
heart

salvation by a deadly kiss
You are the only one....
