Strophe 1

They try to keep you small - afraid of loosing their
control
(you can?t be, no you can?t be)
But your will is getting strong - inside you feel the
overcome
(you can be, yes you can be if you...)

Strophe 2

They watch the moves you make - waiting for your big
mistake
(you can?t be, no you can?t be)
But there is no turning back - once you ever made this
step
(you can be, yes you can be if you...)

Vocoder

Don?t let them tell you lies
Please open up your eyes
Don?t let them tell you
All that they want to

Ref.:

If you open your eyes
You will realise
They told you only lies
And all that they desire
