

## End Of You

### "No Transmission"

Visit "[No Transmission](#)" on MotoLyrics.com

You're losing your strength as you look at the stars  
They're shining brighter than this  
You're in touch with the sun  
And god has become really meaningless

(X2)  
No transmission  
Lights up your face  
No ignition  
You are lost in the upper rooms  
You're receiving  
Only silence  
There's no signal  
That ever reaches you

You're holding your breath as you come closer to mars

And your lips are starting to pray  
You're trying to get into contact with earth  
But you are too far away

(X2)  
No transmission  
Lights up your face  
No ignition  
You are lost in the upper rooms  
You're receiving  
Only silence  
There's no signal  
That ever reaches you
