What ever has been or what may come  
Let's join our hands together as one  
We keep the resistance up  
As long as this society keeps us trapped

Go out and face the troubles again  
There is so much out there that we don't understand  
But this world depends on us  
So it really makes a difference in what we trust

(Chorus)

Don't let your heart become too silent  
You know what I mean  
You are alive and  
You understand and feel  
Don't claim rights on everything  
But now it's time to revolt

Don't let your heart become too silent  
This is no surprise  
You are alive and  
You've opened up your eyes  
Don't claim rights on everything  
But now it's time to revolt

(X4)

Don't let your heart...

What ever has been or what may come  
Let's join our hands together as one  
We keep the resistance up  
As long as this society keeps us trapped

Go out and face the troubles again  
There is so much out there that we don't understand  
But this world depends on us  
So it really makes a difference in what we trust

(Chorus Repeat)

(X4)

Don't let your heart...

Don't let this life slip out off your hands  
You're doing right, pull down your defence  
There will be times when you have no strength to back  
Up  
Back up...

But you should never feel like sorry  
You should never feel deprived  
You've just started a new story in your life  
Your life... your life...

(Chorus Repeat)
