Our love will lastl always stay with you
Without you I am lost
Kiss my lips and hold me tight
It never has to end
How many more of these lieswere you able to spend ?

This is for ever
And for eternity
I remember these words
Because once you told them to me

Bridge

I learned my lection from your attractio
I keep my heart from tearing it apart
I hide mmy feelings deep deep inside
So you can never hurt me with your lies

Ref.:

Hey, hey, hey
You are way of line
For the touch of your handsand the words that you
spend
You?re telling only lies
