

## **End Of You "Upside Down"**

Going around  
I just can't believe it  
Everything goes  
Upside down  
Fall's apart

Through your fears  
Through my pain  
All this silence  
How is it going to be?

Rise  
Rise above my mind  
Make it all whole again  
Reason to fight  
I just need to rise

Rise above my mind  
Make it all whole again  
Reason to fight  
I just need to

Go forward, go through the shadows  
Learn how to be what you are not  
Use your time to find out why  
Why can't you just let it be?  
Why  
Say you don't want it
